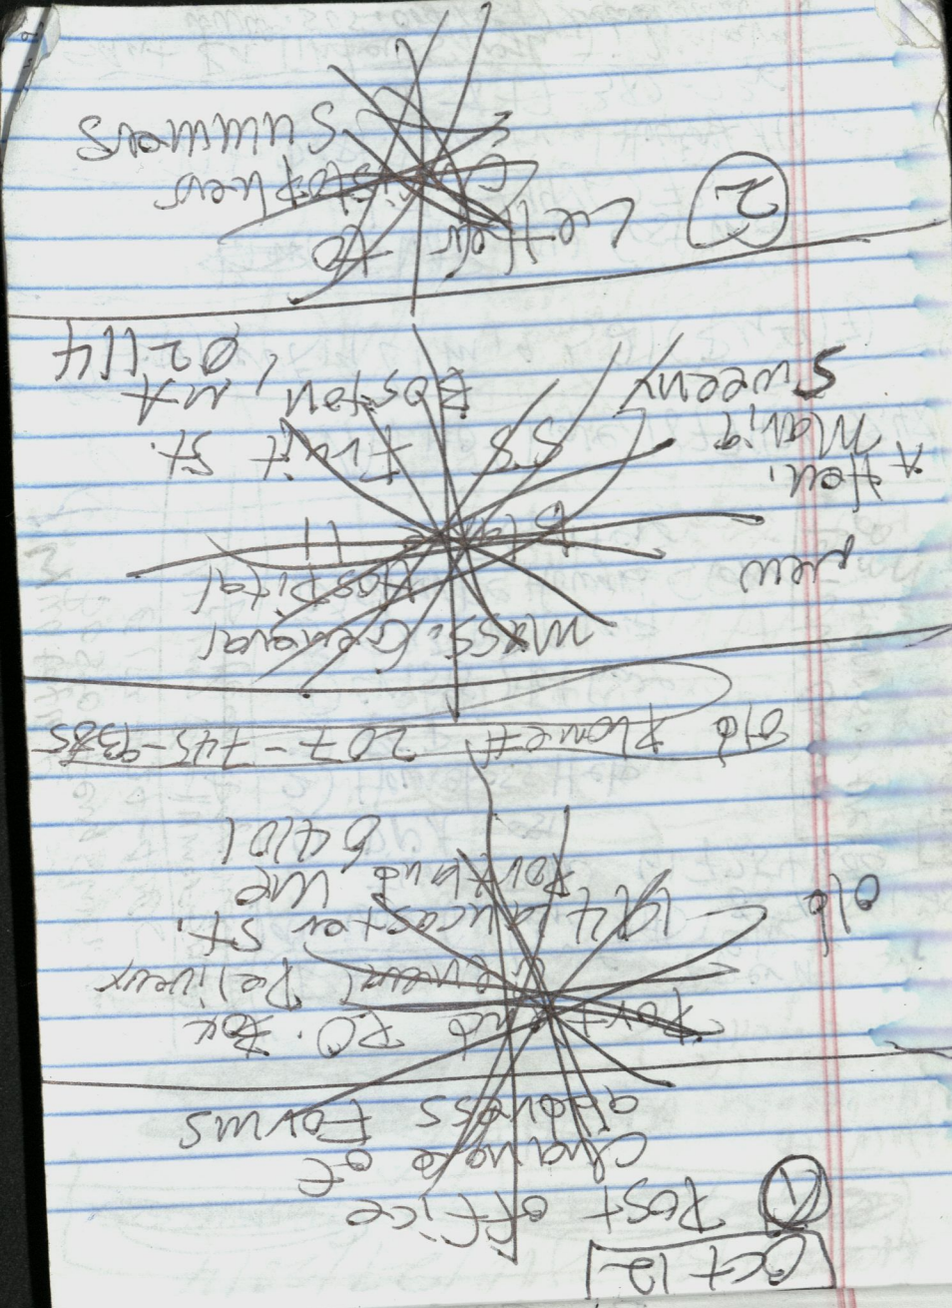
For Mr. Manson

his mind for the
eye,
his aim on the
crown,
but when the Last
Judge spoke.
the knife slithered
down.

his brain fulla cloud,
his spine on the
ground,
but the Judge stood
final
the blade stuffed
down

his hatred fulla spite,
his broken grin a
crown,
but the Jibe still
refused,
cause his pain
were down.



a thumb in his eye
a spickle in his brain
the Judge now down,
his cum in the drain.

Nobody ~~not~~ Likes White People.

"Might Makes Right" ~~and an essay~~ is a white slogan. It was written by a white Guy, then later plagurized and Re-published by another White Guy, Anton Szandor Lavey, who wrote the book "The Satanic Bible" (It's the first Book) and started the Church of Satan!!

to most People; White means Death. Ghosts are white. The "Lite" ~~If~~ you go into it, is white. But People don't want to Die, even white people. that's why no one likes white People. Even the white ones. How to tell if your talking to a white person. answer: they're white!

(we also suck at telling ~~jokes~~ ...)
